THE PID GAMES CONCEPT

Welcome to the PID GAMES – a new educational adventure in paediatric infectious diseases, where high-class interactive learning meets playful competition!

This three days course brings together renowned experts and young talents in an joyful atmosphere of collegiality. In each of the four modules you'll enjoy:

- Masterclasses
- Lively debates
- Interactive clinical cases
- Playful PID quizzes

Following the success of Rome 2023 and Barcelona 2024, the third edition returns to Rome – this time as festive Christmas Edition!

Take your chance to learn, connect and compete - the participant with the highest score wins fame and honor - and a free trip to the next ESPID Annual Conference or the upcoming PID Games.

Let the games begin!

FACULTY

Aguera Marta, *Spain*

Baier-Grabner Sebastian, *Austria*

Buonsenso Danilo, *Italy*

Chaphekar Bangar Gargi, *India*

Daelemans Siel, *Belgium*
